

NEWPORT
EXTERMINATING

TILE ROOF RELEASE AGREEMENT

Property address: _____

Date of Fumigation: _____

To our customers with Tile Roofing:

In the course of serving our customers over the years, Newport Exterminating has found that the delicate nature of tile roofing, coupled with our need to work on the roof during the fumigation process, frequently results in tile damage.

While we exercise every precaution in order to minimize such damage, it is often unavoidable. The possibility of such damage is an inherent risk of the fumigation process that must be assumed by the customer.

******WARNING******

MODERATE TO SEVERE DAMAGE WILL OCCUR!

(Note: According to our interpretation, moderate damage to an average sized home of 1,800 sq. ft. would cost \$500 - \$1500 in repairs.)

Accordingly, it is mutually agreed as follows:

THIS AGREEMENT MUST BE SIGNED IN ORDER TO FUMIGATE PROPERTY

Newport Exterminating shall not be liable to the customer in any manner or for any damage to the customer's tile roofing or for any damage incident thereto arising out of the performance of the fumigation.

CUSTOMER SIGNATURE **DATE**

We recommend that you remain home during the beginning of the fumigation process to enable us to evaluate and discuss the extent of potential tile damage. Following the discussion, if you elect to cancel the fumigation due to potential roof damage, there will be no additional charge.

If you are unable to be present at the start of the process, please provide alternate contact numbers so we may discuss your options and determine whether or not to proceed.
